

## Chapter 6.4

# *Drift Wave Turbulence and Anomalous Transport*

Wendell Horton

*Institute for Fusion Studies  
The University of Texas at Austin  
Austin, Texas 78712, USA*

### *Contents*

6.4.1. Introduction .....	384
6.4.2. Anomalous transport due to drift modes at low plasma pressure .....	386
Particle and thermal flux due to electrostatic drift waves .....	388
Thermodynamics of anomalous transport .....	394
Experiments on the anomalous transport produced by drift waves .....	397
Finite amplitude drift waves in weakly unstable systems .....	399
Amplitude limit for collisional drift waves .....	401
Drift wave solitons .....	402
Quasilinear limit of the anomalous flux .....	402
6.4.3. Drift wave fluctuation spectra .....	408
Qualitative picture of drift wave turbulence .....	409
Systematic theory of drift wave turbulence .....	410
Fluid limit to drift wave turbulence .....	413
Ion temperature gradient drift wave turbulence .....	419
Kinetic theory of drift wave turbulence .....	420
Anomalous transport due to convective cells .....	424
6.4.4. Anomalous transport from electromagnetic fluctuations .....	427
Electromagnetic formulas for particle and thermal transport .....	428
Polarization relations for low frequency electromagnetic fluctuations .....	433
Qualitative picture of anomalous transport due to magnetic fluctuations .....	435
Electron thermal transport from magnetic fluctuations in the fluid approximation .....	439
Saturation levels of the gradient driven tearing modes and finite beta drift waves .....	442
Kinetic theory of transport due to magnetic fluctuations .....	444
References .....	447
